

Are you a master student and interested to work with the latest technologies in a high-tech environment? We are looking for you! This internship is ideal for students who want to connect their academic interests with real-world knowledge.

Your internship @Atos

An internship @ Atos means being part of a great team of our Technology Lab in Amstelveen, Groningen or Eindhoven. It also means you will get the best guidance.

Each student will have two dedicated supervisors; one technical supervisor who will support you with the technical aspects of the internship and one product owner, acting as your coach and facilitating you wherever to get the best out of your internship @ Atos. Next to that you will be part of the student Scrumteam.

We also offer you the possibility to take relevant trainings and courses within Atos Academy, that will contribute to a solid foundation of your project. Last but not least, we have quite interesting other activities within the Technology Lab, such as Game nights, Hackathons, Dare2Share sessions, Young Atos and several social events to get acquainted with the company and your co-workers!

What kind of internship?

Atos BD PS&D is looking for an enthusiastic intern to help support our team for 6 months - 1 year. We are looking for someone who is a passionate researcher and an excellent communicator and team player. We work with a global team of business developers worldwide that we support through a central MS Teams network. Your responsibilities will include arranging meetings for our team, connecting with team members, organizing agendas, and providing analytic support. Additionally, we ask that interns bring their interests to our company. Our previous intern focused on AI cooperation through an international relations perspective. All students have a chance to utilize Atos resources, including a range of courses covering technological subjects. Candidates who have a background in digital governance (e.g. China's social credit system) or AI trends and use cases are preferred.

A job @ Atos after your graduation?

Obviously, that is an option. We have already worked together; you have demonstrated being a professional and you have 'tasted' the Atos culture. If both parties are positive, it could be possible to join of the many foundation programs.

Who are you?

- In search of a great co-work or graduation internship to finalise your Master degree;
- Knowledge and/or experienced with Scrum and Agile;
- Someone who wants to contribute to optimise IT teams and departments.

And you

- Are strong in analytics;
- Have good communication skills;
- Are result oriented.

About Atos

Atos is a global leader in digital transformation with 110,000 employees in 73 countries and annual revenue of € 12 billion. European number one in Cloud, Cybersecurity and High-Performance Computing, the Group provides end-to-end Orchestrated Hybrid Cloud, Big Data, Business Applications and Digital Workplace solutions. The Group is the Worldwide Information Technology Partner for the Olympic & Paralympic Games and operates under the brands Atos, Atos|Syntel, and Unify. Atos is a SE (Societas Europaea), listed on the CAC40 Paris stock index.

The purpose of Atos is to help design the future of the information space. Its expertise and services support the development of knowledge, education and research in a multicultural approach and contribute to the development of scientific and technological excellence. Across the world, the Group enables its customers and employees, and members of societies at large to live, work and develop sustainably, in a safe and secure information space.

Here at Atos, we want all of our employees to feel valued, appreciated, and free to be who they are at work. Our employee lifecycle processes are designed to prevent discrimination against our people regardless of gender identity or expression, sexual orientation, religion, ethnicity, age, neurodiversity, disability status, citizenship, or any other aspect which makes them unique. Across the globe, we have created a variety of programs to embed our Atos culture of inclusivity, and work hard to ensure that all of our employees have an equal opportunity to contribute and feel that they are exactly where they belong.
